Circumcision Resources Online

There is a growing list of web sites related to circumcision. Unfortunately many are full of misinformation deliberately spread by the tiny minority opposed to circumcision for one reason or another.

This booklet aims to provide a list of some of the reliable resources available on the Internet. It is divided into four major sections: (a) Doctors, Clinics and Mohelim offering Circumcision; (b) Academic and General Information Sites; (c) Web Discussion Sites; and (d) Personal Circumcision Experiences.

It does not purport to be complete and exhaustive, neither are the listings regularly updated. It is, however, a starting point for finding reliable information. There is no particular significance to be attributed to the order in which sites are listed within their sections.

Please note that we are not responsible for the content or continued availability of sites other than our own.

We welcome any additions and updates which should be sent to:
info@circumcisionhelpdesk.org

The Helpdesk maintains a more comprehensive list of possible circumcisers throughout the world (not all of whom have a web site). Extracts from that list can be obtained from info@circumcisionhelpdesk.org by quoting your location (country, state/ province/county and city) and whether for yourself or a son (please then quote his age).
